

To hold "its place in the sun," is the avowed purpose of a great nation's conflict. To hold "its place in the sun," is the object of every business in the great fight for industrial and commercial supremacy. To be able to hold "its place in the sun," is the supreme test of an asphalt roof. It is the sun, not rain or snow, that plays havoc with a roof. If it can resist the drying out process of the sun beating down upon it, day after day, the rain or snow will not affect it except to wash it clean and keep it sanitary.

Certain-teed Roofing

takes "its place in the sun" and holds it longer than other similar roofing, because it is made of the very best quality roofing felt, thoroughly saturated with the correct blend of soft asphalt, and coated with a blend of harder asphalt. This outer coating keeps the inner saturation soft, and prevents the drying out process so destructive to the ordinary roof.

The blend of asphalt used by "The General" is the result of long experience. It produces a roofing more pliable than those which have less saturation, and which are, therefore, harder and drier.

At each of the General's big mills, expert chemists are constantly employed to refine, test and blend the asphalt used; also to experiment for possible improvements. Their constant endeavor is to make the best roofing still better.

The quality of CERTAIN-TEED is such that it is guaranteed for 5, 10 or 15 years, according to thickness (1, 2 or 3 ply). Experience proves that it lasts longer. Behind this guarantee is the responsibility of the world's largest manufacturer of roofings and building papers.

HER MATINEE COAT.

Rose velvet so thick it almost becomes plush is the material of this beautiful garment. A very full cape is shirred three times on to a black velvet yoke, matching the deep cuffs. Please notice the unusual way of confining the fullness in the back, a buttoned strap. The coat is lined with rose taffeta.

WAISTS DARK OR LIGHT.

Whether in dark colors to match the suits or in light pastel shades, sheer-ness is the dominant style feature of the fall waists. It is expected that the dark waists to match the suits will be in vogue as the fall season advances, but the early buying favors the white and pastel shades. Sheer silk crepe is again taking the lead with the early buyers. Chiffon, however, is being taken up more extensively than in the past two seasons.

Crepe de chine is a decidedly important factor in the practical waists, which require service as well as attractiveness. White and flesh color crepe de chine continues to attract, but some of the pastel shades, such as gray, tan and blue, are included in the orders for early shipment.

CASH IN ADVANCE PLAN TO BE ADOPTED

On October 15th, 1914, the Big Sandy News Subscription List will be on a New Basis, and the Paper will be Sent Only until the Date Paid in Advance.

INCREASED COST OF PRODUCTION FORCES THIS CHANGE

As announced in the above headline the Big Sandy News will change its policy in handling the subscription list. We are compelled either to increase the subscription to \$1.50 per year or to take steps that will stop all leaks and waste. We hope by doing the latter to keep the subscription price at one dollar.

We are making announcement of our new policy several months in advance of its adoption so that all our friends and subscribers will have ample time to get on the new basis.

It has been customary from "time immemorial" almost for country papers to extend credit to subscribers and to continue sending the paper until death, poverty, disease, hopelessness, or an earthquake caused a break. This is bad business and often times very unsatisfactory. Some people get the impression that the publisher is trying to force the paper on them. This is one thing the publisher of the Big Sandy News can truthfully say he has never intended nor had any desire to do. In soliciting we do not even insist strongly upon anyone subscribing for the paper, because we never want to push it upon any person. Our efforts are directed chiefly to making a paper worth the subscription price. Nevertheless, a few people seem to think the paper is being forced upon them when it continues beyond the date paid for.

On the other hand, we have had a number of subscribers to resent our action in stopping the paper at the expiration of the period paid for, saying it was a reflection on their credit. This is the source from which we anticipate most of the trouble that is likely to come in changing to a strictly cash in advance system. But when the change is made it will be absolutely necessary to enforce it impartially. The mailing list will be in charge of an employee who doesn't know any better than to stop every subscription at its paid expiration.

Although as above stated, the proposition has two sides, we believe our friends and patrons will like the new system better. We ask their kind cooperation in establishing this new business-like plan.
